ASISTS Data Roundtable - CST

January 10, 2012

Questions & Suggestions

Please use call-in number

1-877-447-8313, pin: 2528675

Already in the works…..

- Daily Attendance window fix
- Only non-terminated teachers on drop-downs (Instructional Offering & Test Administrator)
- CTEDS filters being expanded to any class with CIP code (not funding source)
- Refining Funding filters for NRS data check reports
  - Currently Class-level, need student level

Suggestions for Advisory Committee ☺

- More downloads from Back-end
  - Need concrete lists of desired fields (exit reason, change format, etc.)
- Streamline TABE test entry
  - i.e. have cursor move to next field after each refresh
- Active Students only in Daily Attendance

Other Suggestions

- Change Student ID upon name change
  - Can't be done, tied to too many other data bits
  - BUT we CAN address alphabetizing issue in Daily Contact Hours
- Search by First name/DOB
  - Workaround: Ctrl+F on alpha listing will find First name and DOB for newer students
- SASS Changes (discussed at Advisory Board meeting 10/4/2011)
  - Workaround: SASS works (with some student duplication, depending upon enrollments) if you follow the guidelines. No requirement that the report itself come from ASISTS.

Other Suggestions

- Program Eval – Follow-up outcomes by teacher
  - Current year avail by teacher in Table/Data check format
  - Employment-related unavailable at that level – Turnaround available for follow-up
- EPE by Date
  - Workaround: Monthly Claim Form Report
- Instant Changes to Reports
  - No, this is why ASISTS was so slow when we first started
- Students Under 21 (not EPE)
  - Can use the Download Utility of Processed data and sort by DOB
