

## Lesson 11: Addition with Decimals

**Purpose of Lesson:** You will learn to add numbers with decimals.

When adding and subtracting decimals, remember to line up the numbers by their decimal places.

Example:  $21.30 + 2.34 + 0.58 + 45.10 =$

$$\begin{array}{r} \phantom{0}1\phantom{0} \\ 21.30 \\ \phantom{0}2.34 \\ \phantom{0}0.58 \\ +45.10 \\ \hline 69.32 \end{array}$$

Now try these:
