

## Lesson 11: Quiz 1 – Addition with Decimals

Here is another example:

$$\begin{array}{r} \text{Example: } 1.01 + 20.51 + 0.39 = \underline{\mathbf{21.91}} \\ 1.01 \\ 20.51 \\ + \underline{0.39} \\ \mathbf{21.91} \end{array}$$

1)  $32.31 + 3.1 + 4.82 = \underline{\hspace{2cm}}$

2)  $1.02 + 54.45 + 0.12 = \underline{\hspace{2cm}}$

3)  $45.92 + 6.57 + 0.4 = \underline{\hspace{2cm}}$
