

## Lesson 2: Quiz 2 – Place Value

**Directions:** Match the number in digits to the correct word form. Put the number from the column on the right in the space provided in the column on the left.

Pick the correct digits that correspond to the wording shown:

- |                                                                             |              |
|-----------------------------------------------------------------------------|--------------|
| a) Eight million, two hundred one thousand,<br>six hundred twenty-six _____ | 1) 746,230   |
| b) Seven hundred forty-six thousand,<br>two hundred thirty _____            | 2) 8,201,626 |
| c) Twenty thousand, two _____                                               | 3) 20,002    |

Circle the correct word for each number.

- |    |        |                                                                                                                                  |
|----|--------|----------------------------------------------------------------------------------------------------------------------------------|
| 1) | 123    | (a) one hundred twenty-one<br>(b) one hundred three<br>(c) one hundred twenty-three                                              |
| 2) | 2,546  | (a) two hundred fifty-six<br>(b) two thousand, five hundred forty-six<br>(c) two thousand, five forty-six                        |
| 3) | 71,906 | (a) seventy-one thousand, ninety and six<br>(b) seventy thousand, nine hundred six<br>(c) seventy-one thousand, nine hundred six |
