

Lesson 4: Quiz 3 – Rounding Numbers

Directions: We will now round these numerals to the underlined digit. Notice that you must have all zeros to the right of the underlined place. Can you write the answer in digits and words? Notice the pattern in the examples that are completed.

Example: 724,**5**93 rounded is 724,590 seven hundred twenty-four thousand, five hundred ninety

Example: 50,4**2**1,403 rounded is 50,420,000 fifty million, four hundred twenty thousand

Example: 2,**8**93,215 rounded is 2,900,000 two million, nine hundred thousand

Example: **3**9,520 rounded is 40,000 forty thousand

Now you try!

Remember to look at the bold number first to decide whether or not to round the underlined number up.

Oh, Oh! The bold is disappearing; can you finish without my help?

1) **5**6,324 rounded is ____

- | | |
|-----------|---|
| a. 56,324 | Fifty-six thousand, three hundred twenty four |
| b. 56,000 | Fifty-six thousand |
| c. 56,300 | Fifty-six thousand, three hundred |
| d. 60,000 | Sixty thousand |

2) 162 rounded is ____

- a. 160 One hundred sixty
- b. 162 One hundred sixty-two
- c. 200 Two hundred
- d. 60 Sixty

3) 1,675,000 rounded is ____

- a. 2,000,000 Two million
- b. 1,000,000 One million
- c. 1,600,000 One million, six hundred thousand
- d. 1,670,000 One million, six hundred seventy thousand

4) 6,859,555 rounded is ____

- a. 6,860,000 Six million, eight hundred fifty thousand
- b. 6,850,000 Six million, eight hundred sixty thousand
- c. 6,840,000 Six million, eight hundred forty thousand
- d. 6,859,000 Six million, eight hundred fifty-nine thousand

5) 400,650,220 rounded is ____

- a. 400,650,200 Four hundred million, six hundred fifty thousand, two hundred
- b. 400,650,220 Four hundred million, six hundred fifty thousand two hundred twenty
- c. 400,650,000 Four hundred million, six hundred fifty thousand
- d. 401,000,000 Four hundred one million

6) 51,729 rounded is ____

- a. 52,000 Fifty-two thousand
- b. 51,000 Fifty-one thousand
- c. 51,700 Fifty-one thousand seven hundred
- d. 51,720 Fifty-one thousand seven hundred twenty

7) 675,000,000 rounded is ____

- a. 675,000,000 Six hundred seventy-five million
- b. 700,000 Seven hundred thousand
- c. 700,000,000 Seven hundred million
- d. 660,000,000 Six hundred sixty million

8) 583,499 rounded is ____

- a. 584,000 Five hundred eighty-four thousand
- b. 583,000 Five hundred eighty-three thousand
- c. 583,400 Five hundred eighty-three thousand, four hundred
- d. 584,400 Five hundred eighty-four thousand, four hundred

9) 4,953 rounded is ____

- a. 5,900 Five thousand, nine hundred
- b. 4,900 Four thousand, nine hundred
- c. 4,950 Four thousand, nine hundred fifty
- d. 5,000 Five thousand

10) 9,701 rounded is ____

- a. 10,000 Ten thousand
- b. 9,700 Nine thousand, seven hundred
- c. 9,800 Nine thousand, eight hundred
- d. 10,800 Ten thousand, eight hundred

11) 14,399 rounded is ____

- a. 14,000 Fourteen thousand
- b. 10,000 Ten thousand
- c. 15,000 Fifteen thousand
- d. 20,000 Twenty thousand

12) 87,505 rounded is ____

- a. 90,000 Ninety thousand
- b. 87,000 Eighty-seven thousand
- c. 87,500 Eighty-seven thousand, five hundred
- d. 88,000 Eighty-eight thousand

13) 999,999 rounded is ____

- a. 900,000 Nine hundred thousand
- b. 990,000 Nine hundred ninety thousand
- c. 1,900,000 One million nine hundred thousand
- d. 1,000,000 One million
