

# Write SMART Introduction

Write SMART (Skills to Make Adults Ready to Succeed), has been designed to reach out to a diverse population with various needs and goals. It is customized, thus enabling the instructor to teach and challenge the students at their functioning levels. All work will be assigned by the teacher. Some assignments will be graded by the computer and some will be evaluated by the teacher. Throughout the SMART writing program the SMARTY instructor will be introducing you to characters and writing “tips”.

*Note: When working on the program be aware of the ability to change the size of the print.*
