

Lesson 29: Quiz 4 - Write About Your Metaphor

Directions: Choose one of the metaphors you created in the previous exercise. Write about this metaphor using supporting details. Provide proof or reasons that make your metaphor true.

For example:

The road was a conveyor belt, carrying cars, trucks and buses. In constant motion, it ran in circles, then straight ahead, emptying some vehicles to the left, or the right. Sometimes slow, sometimes fast, but always steady, the traffic pumped its way through the landscape.

This example shows how the road acted like a conveyor belt. Each sentence explained this with specific details. Picture the cars exiting the road the way a conveyor belt drops its load in different directions.
