

Evolution in a Word (or Two)

For each group of words:

- (1) Discuss and agree upon a “student-friendly” definition for each word.
- (2) Discuss the relationship between the words. How are they similar? Different?
Then write a sentence or two about the relationship between the words. Be precise.

Group 1

- Gene
- Trait

Group 2

- Gene
- Inheritable
- Diversity

Group 3

- Population
- Species

Group 4

- Species
- Organism

Group 5

- Sexual Reproduction
- Mutation

Group 6

- Mutation
- Adaptation

Group 7

- Artificial selection
- Natural selection

Group 8

- Theory
- Hypothesis
- Fact

Group 9

- Fossil
- Homologous structure
- Evolution

Group 10

- Chromosome
- DNA
- Gene

Group 11

- Trait
- Extinct
- Species

Group 12

- Asexual reproduction
- Trait
- diversity
