

Lesson 56: Quiz 4 - Graphs

Directions: Read all information carefully and answer the following questions.

Sammy Sosa is a famous baseball player. He has hit many home runs. Below is a line graph that shows the number of home runs he hit in a 5 year period. Answer the questions based on this line graph.

- 1) In what year did Sammy Sosa hit the most home runs? _____
- 2) In what year did Sammy Sosa hit the fewest home runs? _____
- 3) About how many home runs did he hit in 2003? _____
- 4) If this trend continues what can you predict about Sammy Sosa's home run total for 2005?

Select one:

- A)** He will have more home runs. **B)** His home runs will remain about the same.
C) He will have fewer home runs. **D)** He will retire from baseball.
