

Lesson 30: Quiz 1 – Dividing Numbers by Two Digits

Directions: Solve the following problems by finding the value of the remainder. The rest of the solution has been done for you.

1)
$$\begin{array}{r} 5 \\ 42 \overline{)231} \text{ R_} \\ \underline{-210} \end{array}$$

Answer: _____

2)
$$\begin{array}{r} 4 \\ 64 \overline{)286} \text{ R_} \\ \underline{-256} \end{array}$$

Answer: _____

3)
$$\begin{array}{r} 6 \\ 55 \overline{)353} \text{ R_} \\ \underline{-330} \end{array}$$

Answer: _____

You're on your own...
These quotients will be one digit answers

Solve these problems and give your answer with both the quotient and the remainder. Example: Record your answer as **6R13** where the quotient is **6** and the remainder is **13**.

4. $72 \overline{)524} = \underline{\hspace{2cm}}$

5. $25 \overline{)159} = \underline{\hspace{2cm}}$

6. $53 \overline{)107} = \underline{\hspace{2cm}}$
